

Field Trip to the Apple Store

Inspiring collaboration and creativity with Apple products.

Choose a Field Trip. Any Field Trip.

Every classroom is different. Apple Field Trips can be, too. Teachers can tailor their trip to complement the education the kids are already getting in their classrooms. Field Trip themes and topics include the following:

Discovery and Experimentation

Students can learn the value of conducting experiments and overcoming challenges, testing their theories along the way.

Interactive Storytelling

Combining literacy and creative skills, students can bring stories to life that spark their imaginations.

Digital Marketing

Using persuasion and design skills, students can create digital projects to inspire change and action in areas like sustainability and health.

Content for the Classroom

Teachers can discover how iPad, together with content from the App Store, iBooks Store, and iTunes U, can be used to enhance classroom learning.
